Develop your child's intellect through the royal game of chess. Current research has shown a strong link between chess and academic performance in a variety of areas, including mathematics and language arts. Also, chess has been proven to enhance children's motivation, concentration, focus, social skills, and creativity. Learn how to win at chess! No previous knowledge of chess is necessary. Each class will consist of a fun interactive teaching period and guided practice time. Due to the small size of the group, each child will receive plenty of personalized attention. Both new and returning participants are welcome and will advance to the next level under the guidance of an experienced Chess Scholars coach. There will also be a chess competition with prizes!

How many of us say, "I always wanted to learn to play the piano. I wish I could read music. I wish I knew how to sing." It's never too late to learn! In this class, adults with little to no musical background are invited to come learn together in a fun, easy atmosphere. We will learn about musical notes and rhythms, take the fast track to learning some simple piano pieces, play musical games, and sing some old favorites. We'll even try our hand at conducting! Students are not required to perform, and will not be singled out. You can stay within your comfort zone, learning with the group, and having a great time doing it.
